

Star Tent - 43 ft.

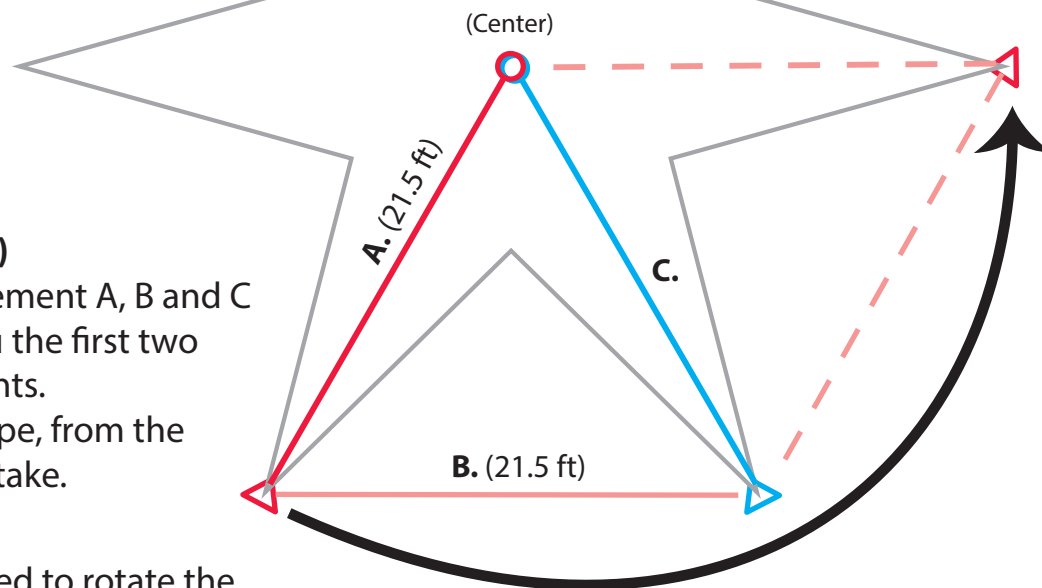

(Step 1.)

Locate center point.
Pound in a stake
(for measuring only).

(Step 2.)

Measurement A, B and C
give you the first two
end points.
Use a rope, from the
center stake.

Continued to rotate the
rope ('red line') to find other points.

(Step 3.)

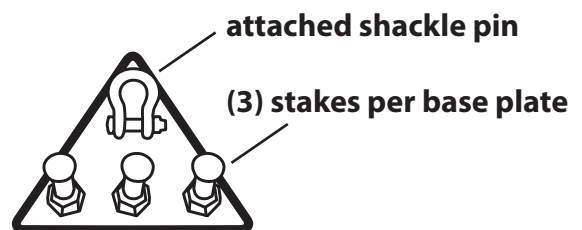

- Secure base plates, as you go.

(Step 4.)

- Spread out canopy.
- Attach 5 of the corners (leave one open).

(Step 5.)

- Insert center pole— raise center pole to a vertical position.
- Finally, attach last corner.

ITEM LIST:

- (18) Stakes
- (6) Base Plates
- (1) Center Pole
- (1) Canopy (tent top)
